	Examiner SHELLEY A. DODSON	Art Unit 1616	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1.

Applicant's election dated December 19, 2003 is acknowledged. The new Examiner of record has considered the arguments with respect to propriety of the restriction requirement dated July 02, 2003 and found them to be persuasive. The Examiner is hereby rejoining all claims and claims 1-40 will be searched and examined on the record.

2.

Claims 1-40 are pending in this application filed May 05, 2003.

Applicant's claims are directed toward aerosol hair styling compositions containing select polyalkylene glycol styling agents.

Claim Rejections - 35 USC § 112

3.

Claim 39 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and

distinctly claim the subject matter which applicant regards as the invention.

4.

Claim 39 recites the limitation "composition of claim 26" in claim 26 applicant is claiming a "method" not a "composition". There is insufficient antecedent basis for this limitation in the claim. Clarification is necessary in the above stated matter.

DOUBLE PATENTING

5.

The non-statutory double patenting rejection, whether of the obviousness-type or non-obviousness-type, is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent. In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); and In re Goodman, 29 USPQ2d 2010 (Fed. Cir. 1993).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(b) and (c) may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78(d).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

6.

Claims 1-40 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-30 of U.S. Patent No. 6,635,240 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the referenced patent as well as the instant application are claiming hair styling compositions and methods employing from about 5% to about 90% by weight of a polyalkylene glycol styling agent that is substantially free of polyalkylene glyceryl ethers.

7.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

8.

The following is a quotation of 35 U.S.C. § 103 which forms the basis for all obviousness rejections set forth in this Office action:

A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Subject matter developed by another person, which qualifies as prior art only under subsection (f) or (g) of section 102 of this title, shall not preclude patentability under this section where the subject matter and the claimed invention were, at the time the invention was made, owned by the same person or subject to an obligation of assignment to the same person.

9.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. § 103, the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 C.F.R. § 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of potential 35 U.S.C. § 102(f) or (g) prior art under 35 U.S.C. § 103.

10.

Applicant has provided evidence in this file showing that the invention was owned by, or subject to an obligation of assignment to, the same entity as the reference at the time this invention was made. Accordingly, the reference is disqualified as prior art

through 35 U.S.C. § 102(f) or (g) in any rejection under 35 U.S.C. § 103 in this application. However, this reference additionally qualifies as prior art under section of 35 U.S.C. § 102 and accordingly is not disqualified as prior art under 35 U.S.C. § 103.

Applicant may overcome the reference either by a showing under 37 CFR 1.132 that the invention disclosed therein was derived from the invention of this application, and is therefore, not the invention "by another", or by antedating the reference under 37 CFR 1.131.

11.

Applicant is advised that although the system shows that the instant application is a continuation of parent case Serial No. 09/464,172 now USP No. 6,635,240 B1, there is no record of this in the specification, oath and declaration nor the continuing data on the bibliography sheet. Clarification is necessary in this matter.

Information Disclosure Statement

12.

The information disclosure statements (IDS) submitted on November 18, 2002 and April 06, 2002 were noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement and made it of record.

through 35 U.S.C. § 102(f) or (g) in any rejection under 35 U.S.C. § 103 in this application. However, this reference additionally qualifies as prior art under section of 35 U.S.C. § 102 and accordingly is not disqualified as prior art under 35 U.S.C. § 103.

Applicant may overcome the reference either by a showing under 37 CFR 1.132 that the invention disclosed therein was derived from the invention of this application, and is therefore, not the invention "by another", or by antedating the reference under 37 CFR 1.131.

11.

Applicant is advised that although the system shows that the instant application is a continuation of parent case Serial No. 09/464,172 now USP No. 6,635,240 B1, there is no record of this in the specification, oath and declaration nor the continuing data on the bibliography sheet. Clarification is necessary in this matter.

Information Disclosure Statement

12.

The information disclosure statements (IDS) submitted on November 18, 2002 and April 06, 2002 were noted and the submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the examiner has considered the information disclosure statement and made it of record.
